**INTRO WELCOME TO THE PRIDE STUDY'S LIFETIME HEALTH & EXPERIENCES QUESTIONNAIRE ! PLEASE READ THIS**

Welcome to The PRIDE Study's Lifetime Health & Experiences Questionnaire. We thank you for your interest in helping us track LGBTQ+ health on a long-term scale.

One of The PRIDE Study's goals is to create a comprehensive understanding of our LGBTQ+ communities' physical, mental, and social health. To do that, we ask many questions. This questionnaire is about health-related issues that have **EVER** happened to you. Some questions are similar to those in the "My Profile" and "My Health" sections of The PRIDE Study. We apologize for what seems like duplicated questions, but asking these questions is important to make comparisons to the overall US population and to understand your health over time.

Many questions are routinely asked in national health surveys. In some cases, we have modified these questions. While these questions may not use perfectly appropriate language for LGBTQ+ communities, we use these questions so that we can make comparisons to the overall US population.

## **INTRO2 HOW TO SAVE YOUR SURVEY TO FINISH LATER**

We estimate that this Lifetime Health & Experiences Questionnaire will take about 35-45 minutes to complete.

While we recommend that you complete the survey in one sitting, you can start the survey and finish it later by selecting "Save and Exit" in the upper-right corner of the screen. You will return to your Dashboard.

To return to the survey, click on the "Continue" button for the survey you wish to continue.

Start of Block: Mental Health Block

MH\_INTRO This section is meant to give us a sense of your general mental health by asking about specific diagnoses, conditions, symptoms, and behaviors. This is one of 4 sections in the Lifetime Health & Experiences Questionnaire.

Many of these questions are standard questions routinely asked in national health surveys. Your honest answers will help us as we study LGBTQ+ health in The PRIDE Study in order to improve the health and well-being of our communities. Please do your best to answer every question, but you may skip questions that feel too uncomfortable to answer. This section should take about 5-10 minutes to complete.

While we recommend that you complete the entire Lifetime Health & Experiences

Questionnaire in one sitting, you can pause the survey to complete at a later time by selecting "Save and Exit" in the upper-right corner. If you select this option, please do come back later. Completing the whole questionnaire means we have more power to advance LGBTQ+ health.

Thank you for making a difference!

SH\_INTRO This section is meant to give us a sense of your social health, or understanding how you are doing with your relationships to the people and communities around you. We ask questions about employment and housing, how you interact with various people who you meet or know, etc. This is one of 4 sections in the Lifetime Health & Experiences Questionnaire.

Some of these questions are standard questions routinely asked in national surveys. Your honest answers will help us understand the overall health of our communities. Please do your best to answer every question, but you may skip questions that feel too uncomfortable to answer. This section should take about 10-15 minutes to complete.

While we recommend that you complete the entire Lifetime Health & Experiences Questionnaire in one sitting, you can pause the survey to complete at a later time by selecting "Save and Exit" in the upper-right corner. If you select this option, please do come back later. Completing the whole questionnaire means we have more power to advance LGBTQ+ health. Thank you for making a difference!

## HARASS\_INTRO Experiences in Society

The next questions are about experiences with violence, harassment, and discrimination that you may have had throughout your life. These questions will help us know more about LGBTQ+ people's experiences and challenges. You may be asked if you think you were targeted due to your **sexual orientation** (the gender of people you are attracted to and engage with romantically and/or sexually), **gender identity** (the gender you identify as), **gender expression** (how you outwardly express your gender), **race/ethnicity**, **age**, **ability/disability status**, or **body size, weight, or shape**. This may be hard to know for sure. Please make your best judgment.

SH\_OUTRO You have completed the Social Health section! This is one of 4 sections! Phew! We know this survey is long and we thank you for the time and energy you have put into helping us advance our collective understanding of LGBTQ+ health. Your answers are bringing us one step closer to LGBTQ+ health equity!

End of Block: Social Health Block

---

Start of Block: Physical Health Block

PH\_INTRO

This section is meant to give us a sense of your physical health. We ask questions about your physical activity, sex life, health insurance, cancer screening, vaccinations, pregnancies, and use of birth control. This is one of 4 sections in the Lifetime Health & Experiences Questionnaire.

Many of these questions are standard questions routinely asked in national health surveys. Your honest answers will help us as we study LGBTQ+ health in The PRIDE Study in order to improve the health and well-being of our communities. Please do your best to answer every question, but you may skip questions that feel too uncomfortable to answer. This section should take about 15-20 minutes to complete.

While we recommend that you complete the entire Lifetime Health & Experiences Questionnaire in one sitting, you can pause the survey to complete at a later time by selecting "Save and Exit" in the upper-right corner. If you select this option, please do come back later. Completing the whole questionnaire means we have more power to advance LGBTQ+ health. Thank you for making a difference!

ORGAN\_INTRO The next set of questions mentions body organs. We are asking these questions to get a comprehensive look at your health. We know that people refer to their organs differently, and we have tried to use the medical terms as well as commonly used non-medical terms. We know that this will not accurately reflect the diversity of our communities, but we hope it gets us closer to some critical health understanding.

---

ORGANS\_BORN\_L To understand your health and customize this survey for you, we need to know what organs you were born with. People have a wide range of language or terms for their physical anatomy (not all of which are listed here). Which of the following organs were you born with? (Check all that apply.)

- Cervix (you likely have/had this if you were assigned female sex at birth) (1)
  - Ovaries (2)
  - Penis/Phallus (not including a prosthetic) (3)
  - Prostate (you likely have/had this if you were assigned male sex at birth) (4)

COLON\_TEST\_L Colon or rectal cancer tests include blood stool tests, colonoscopy, and sigmoidoscopy.

A blood stool test or occult blood test, also known as the fecal immunochemical (FIT) test, determines whether you have blood in your stool or bowel movement. These tests can be done at home using a kit. You use a stick or brush to obtain a small amount of stool at home and send it back to the doctor or lab.

A sigmoidoscopy and colonoscopy are exams in which a tube is inserted in the rectum to view the colon for signs of cancer or other health problems. For a sigmoidoscopy, the doctor or another health care provider checks only part of the colon and you are fully awake. For a colonoscopy, the doctor or another health care provider checks the entire colon, and you are given medication through a needle in your arm to make you sleepy, and told to have someone drive you home. Before a sigmoidoscopy or colonoscopy, you are asked to take a medication that causes diarrhea.

BC\_INTRO Now we would like to ask you a few questions about "birth control." We acknowledge that "birth control" can be used by people for different things. Some people use "birth control" to avoid getting pregnant. Other reasons people use "birth control" include things like gender affirmation, stopping having periods, clearing up their skin, reducing body hair, preventing sexually-transmitted infections, or controlling symptoms related to menopause.

## FUTRESEARCH\_INTRO Future Research in The PRIDE Study

---

Q678 In the future, The PRIDE Study may conduct optional research studies that involve taking certain measurements at home such as your heart rate or blood pressure. Additionally, The PRIDE Study may conduct optional research studies that include collection of biological specimens such as saliva, urine, hair samples, or blood.

In order to determine if these are research studies that we should conduct, we are asking the next questions to find out which devices our participants own and what specimens they would be willing to give us for research purposes.

---

SCALE Do you own a scale that can measure your weight? It does not need to be a digital scale or a "smart" scale that is connected to the Internet.

- Yes (1)
  - No (0)
  - I don't know (88)
- 

BPCUFF Do you own an automatic (digital) blood pressure cuff that goes around your upper arm (not your wrist)?

- Yes (1)
  - No (0)
  - I don't know (88)
- 

GLUCMETER Do you own a glucometer (a device that checks your blood sugar level using a small drop of blood obtained by a fingerstick)?

- Yes (1)
  - No (0)
  - I don't know (88)
- 

SALIVA Would you be willing to participate in research studies that request that you submit a saliva (spit) sample?

- Yes (1)
  - No (0)
  - I don't know (88)

**Q716 YOU ARE ALMOST DONE WITH THIS SURVEY - PLEASE READ BELOW AND THEN CLICK NEXT**

**This is required in order for the system to mark your survey as "Complete."**

Thank you for completing the Lifetime Health & Experiences Questionnaire and for advancing scientific knowledge about the health of LGBTQ+ people!

In addition to our commitment to communicating findings from the study back to our community in the future, we also want to connect our participants with some resources that may be helpful to them now. Please find below a list of websites, organizations, and hotlines that may be helpful in promoting LGBTQ+ people's health, safety, and wellbeing.

- Find an LGBTQ+ center near you with Centerlink, The Community of LGBT Centers: [lgbtcenters.org](http://lgbtcenters.org)
- Find free HIV testing in your area through the Centers for Disease Control's GetTested program: <https://gettested.cdc.gov/>
- Find an LGBTQ+-friendly doctor through GLMA: Health Professionals Advancing LGBTQ Equality (the LGBTQ Healthcare Association): [https://glmaimpak.networkats.com/members\\_online\\_new/members/dir\\_provider.asp](https://glmaimpak.networkats.com/members_online_new/members/dir_provider.asp)
- Talk with someone 24/7 if you are in crisis or thinking of suicide: National Suicide Prevention Lifeline: 1-800-273-8255
- Talk with someone 24/7 if you need support related to being a survivor of sexual assault: National Sexual Assault Hotline: 1-800-656-4673
